the latter port on Sunday morning last.—
Robert Lewis Fireman was instantly killed;
Arthur Black Second Engineer was so badly
injured that he died soon after; Jasper
Crosby First Engineer and two deck hands
named Charles Williams and William Smith,
were severely wounded, the last two seriously
that it is thought they cannot possibly
survive. The disaster was caused by the
crown sheet of the boiler giving way through
defective iron.

DEATH OF LIEUT. JOHN C. GRISWOLD.—In the list of killed in the late bloody bat-
tle at Fredericksburg, we are pleased to notice
the name of Lieut. John C. Griswold,
of Co. F, 15th N. Y. V. Lieut. Griswold
was an old resident of the town of Arkwright,
in which he had held important positions as
a town officer, having been for many years a
Justice of the Peace, and three times elected
Supervisor, which position he held at the
time of entering the service of his country.
He was an upright and worthy citizen, and
his death will be deeply felt in the community
where he lived. His age was about 42. He
leaves a family to mourn his loss.

THE 50TH ANNIVERSARY.—HYSTORIC DEATH
OF COL. STEPHEN WADDELL.—In nearly all the en-
gravings of the battle of Fredericksburg, which is
now considered the most terrible of the war, the
Regiment, which had advanced so gallantly forward for the first half hour, is shown to have
lost its color-bearer, Col. Stephen Wadell, during
this period. The color-bearer was a young man
from New York, and was a son of the Rev. Dr. Wadell
of the Methodist church in New York, who was
