The subjoined(?) communication from the Chief Commissary of the Division is respectfully referred to Brigade Commanders, who will take such action as is required.

Brigade Commissaries must not be allowed to load the wagons that have been emptied of provisions, with knapsacks and unnecessary articles. The supply wagons should be kept loaded with potatoes and bread stuffs. Neglectin (sic) this matter, now, may prove fatal to our success in the future. At the same time it may be necessary to load a few wagons with the sick and their arms, equipments, etc.

Brigade Commanders will give the subject their immediate special attention.

By command of

Brig. Genl. Jno. W. Geary W. T. Forbes AAAG

Head Quarters 2d Div. 20th C. Subsistence Department December 1st, 1864

Captain:

I have the honor to request the attention of the General Commanding to the fact that Par. IV Special Field Order No. 120 Head Qrs. Mil. Div. Miss. is not obeyed in this command.

Upon leaving Atlanta sufficient transportation was furnished brigades "to keep in wagon trains at least ten days provisions." They country has furnished opportunity to carry out this order by loading potatoes and other stores to replace Hard Bread of which our wagons are now nearly empty.

At portion of the transportation at first assigned the commissary department is kept filled with sick men and knapsacks and in one way or another kept from its legitimate uses. In some Brigades empty wagons, or wagons only party filled, are

permitted to be in the trains constantly, and no effort made to fill them, though our road lies through abundance.

Believing that the best interests of the Command require that the trains be kept filled whenever practicable, thereby preparing ourselves for all emergencies, I respectufully request that this subject be brought to special notice by an order to all concerned.

I am, Captain, Very truly Your Obdt Servt. (Sgd) James Gillette Capt. & CSV

Capt. W. H. Lambert Actg. Ajt. Insp. Genl. 2d Division

Captain:

I have the honor to submit the following letter of advice:

From the date of last report the Brigade was continually on the move until
the 10th inst. when it reached its present position. Since the latter date the Command
has been actively engaged in doing guard and picket duty and in erecting fortifications.

The regiments are encamped as follows: The 73d Pa. V.V. and 124th N.Y.V. are intrenched on Johnsons Island in the Savannah River; the 109th Pa. V.V., 119th N.Y.V., 154th N.Y.V. and 33d N.J.V. are held as a reserve in rear of the 3rd Brigade on the west bank of the River.

The general condition of the Command is good. The troops presented a fair appearance at inspection. Clothing is well worn but requisitions have been forwarded for new supplies. Arms accountrements and ammunition are in good condition with sixty (60) rounds per man.

Qr. Mr. Dept.

The transportation of the Brigade consists of 8 horses one hundred and forty (140) mules and twenty-three (23) army wagons. The jaded and almost broken-down animals which left Atlanta have been replaced by good serviceable mules captured on the route. The animals have been well supplied with corn, oats and fodder gathered from the country traversed.

Subsistence Dept.

The following rations have been issued during the month. Four and one half (4-1/2) rations of hard bread. Fifteen (15) of coffee, twelve of sugar, three (3) of bacon and full rations of fresh beef, salt, pepper, candles and soap. In addition to the above gov't rations of sweet potators, molasses, sugar, fresh pork, peas, beans, rice meal, flour, poultry and turnips were gathered from the surrounding country by foraging parties sent out from the Brigade.

Medical Dept.

The health and sanitary condition of the troops is good. Medical supplies are sufficient. Each regiment is furnished with a good pack mule to carry paniers (?).

The several departments of the Brigade generally/well conducted and their management reflects credit upon the officers in charge of them.

The average daily detail for guard picket and fatigue and the average daily number of sick in the brigade during the month is as follows:

	Guard	Picket	Fatigue	Sick
73rd Pa. V. Vols.	4	5	3	3
109th Pa. V. Vols.	4	10		2
119th N.Y. Vols.	5	10	3	21/2

154th N.Y. Vols.	10	17	3	7
33rd N.J. Vols.	8	60	3	5
Total	41	114	16	222

The following officers reported present for duty were absent at inspection:

Lieut. A. Harlfinger 73rd Pa. V. V. On picket

Lieut. A. Kidney 109th Pa. V. V.

Chaplain W. Norton 154th N.Y. V. with leave

The last orders received at this office are Circular of Nov. 7th 1864 and Gen. Orders No. 19th 20th Corps. S. F. Q. No. 120 and Gen. Orders No. 26th Mil. Div. Miss. and Gen. Orders No. 270 War Dept.

Regulations and existing orders are well observed in the Command.

Regimental and company funds are properly accounted for.

There are no officers absent without leave. Regimental and company books are as complete as circumstances will permit.

There are no officers to be reported for habitual intemperance or neglect of duty.

Circular No. 1

I. Brigade Inspectors are reminded of the necessity of enforcing in their commands, immediate compliance with the provisions of orders from Head Quarters 20th A. Corps dated November 19, 1864. The number of pack animals allowed by the order is sufficient.

A careful inspection will be made at the western side of the pontoon bridge when the command crosses, and all surplus animals will be turned over to the Quarter-masters Department and the officer retaining them will be reported to the Division Commander for disobedience of orders. To facilitate this inspection, Brigade Inspectors will see that the pack mules will be marched after the Regiments to which they belong, respectively.

II. The attention of Inspectors is called to another and most dangerous instance of disobedience of orders, to wit:

Officers and non-commissioned officers, in charge of picket posts neglect, as a fule, placing videttes on duty during the day when not near the enemy, considering it in their judgement a useless trouble to their men. This must be at once corrected. The same vigilance and thoroughness should be observed fifty miles from the enemy as would be ovserved were the pickets within musket range. It is only to a thus that vigilance becomes a habit - a necessity -/good soldier.

III. Brigade Inspectors will forward to this office before ten o'clock a.m. tomorrow, a report showing whether G. O. No. 4, Head Quarters 20th Corps. dated January 31, 1865, Circular from Head Quarters 20th Corps, dated February 1, 1865 and Circular Orders No. 11 Head Quarters 2 Div. 20th Corps. dated February 2, 1865 have been distributed to the different Regiments and Staff Departments of their command and whther the same have been read to the command. They are requested to interest themselves in their promulgation and are reminded of the necessity of enforcing their provisions.

IV. All offal within the camp limits should be promptly buried.

General Orders

All officers and soliders of this command are reminded that the state of North Carolina was one of the last states to pass the ordinance of secession and that from the commencement of the war there has been in this state a strong Union party. Her action on the question of secession was undoubtedly brought about by the traitorous acts of other states and by intrigue and dishonesty on the part of a few of her own citizens. The act even never met the approval of the great mass of her people.

It should not be assumed that the inhabitants are enemies to our Government and it is to be hoped that every effort will be made to prevent any wanton destruction of her property or any unkind treatment of citizens.

Captain:

I have the honor to submit the following letter of advice.

Since the 20th ult. the Brigade has been continually on the march through the States of South and North Carolina. This continued activity without a renewal of supplies begins to affect materially the comfort and appearance of the troops.

Clothing of nearly every kind if much needed especially shoes, stockings and trowsers.

Notwithstanding the length of the campaign and the poverty of much of the country through which the army passed the command has not suffered materially from want of subsistence. All means have been taken to secure whatever provisions the country afforded. Mounted foraging parties have been organized and the utmost advantage taken of all mills on the route; large quantities of meat and corn meal have been thus secured. In addition to supplies thus obtained the following Govt. rations have been issued:

9400 lbs. hard brea, 1075 lbs coffee, 130 lbs. sugar.

Fodder has been abundant during the whole campaign and notwithstanding the severe labor which the animals have performed their condition is satisfactory.

The health, physical condition and morale of the troops is good and they only need supplies of clothing to prepare them for a renewal of the campaign.

I am very respectfully Your obt. Servt. J.L. Harding Capt. 154th NY V.V. A.A.I.G.

Penalty for retaining officers in service after muster out of their commands

I. It is observed that some commanding Generals have violated the Regulations and orders of the Department by recognizing and retaining regimental officers of volunteers in service, after the musters out of service of their proper commands, thus giving rise to many irregular claims for pay.

It is therefore ordered, that, hereafter, in all cases where said claims are presented, or the irregular and unauthorized retention of officers is otherwise brought to notice, the pay of the Commanding officer responsible for the retention be stopped for the <u>full amount of the claim or time</u> subsequent to the date at which the officer or officers should have been discharged the service.

Nothing herein will be construed as modifying in any way, the provisions of Paragraph 3, General Orders No. 110 of 1863, or rewritting (sic) the penalties thereby imposed as follows

"No commissioned officer of any grade in excess of the legal organization will be recognized. Any commander who may acknowledge or receive as in service any such officer will be brought to trial for neglect of duty and disobedience of orders. No person acting in capacity of a supernumerary will under any circumstance be permitted to receive pay and allowances from the Government; and paymasters making payments to such supernumeraries will be held individually accountable for accounts so paid."

II The attention of Commanding Generals of Armies and Departments is invited to the requirements of Circular No. 80 series of 1864 from this office requiring inspections and reports.

Hereafter any inspection as contemplated by that Circular will be made monthly, on the last day of each month, and report of the same forwarded to the Adjutant

General of the Army.

Captain:

I have the honor to submit the following letter of advice:

Since the date of my last report the Command continued its march through North Carolins reaching Goldsboro March 25th where it remained encamped until Monday morning April 10th when it took up the line of march toward Raleigh. It arrived at it (sic) present position about one half mile southwest of Raleigh on the afternoon of the 14th inst. and encamped in the following order: 134th N.Y. Vols on the right connecting with the 3rd Brigade, 33rd N.J. Vols, 119th N.Y. Vols, 154th N.Y. Wols and 73rd Penna V Vols on the left connecting with the 1st Brigade.

The 109th Pa. Vet Vols having been consolidated with the lllth Pa. Vet Vols has been transferred to that regiment in the 3rd Brigade of this Division.

The command is in the most effective condition. The health of the troops is good; they are well supplied with clothing and camp equipage and give prompt and willing obedience to all orders. The camps are located on elevated and dry ground and are well policied: all sanitary measures are enforced.

During the encampment at Goldsboro all guards were mounted at 9 a.m. The troops were daily exercised (sic) in the various drills according to Casey and instructed in guard and picket duty.

Adjt Genl's Dept.

The business of this dept is promptly and efficiently conducted.

Inspector's Dept.

Daily visits have been made to the camps which have been kept in as good condition as the frequent movements of the troops would permit. Ratios are prepared by company cooks in accordance with existing orders.

The Articles of War have been read to the troops as frequently as the nature of the service would permit. All unserviceable property has been inspected and recommended to be disposed of for the best interests of the service.

Clothing is in good condition, nearly new. The troops while at Goldsboro received full supplies with the exception of a few pairs of drawers, bootees, haversacks, canteens and knapsacks. These articles were mostly required to refit recruits and convalescents who arrived but two days before the command moved; no great inconvenience however has been felt.

Owing to the absence of company books which were sent to the rear at Atlanta in accordance with orders received from Hd Qrs 20th Corps the company books and records are not complete; but in the absence of these books memorandum records and accounts have been kept by company officers of all clothing issued to their commands and now that the prospects are favorable for the mustering out of the troops at an early day the officers ask that these books may be forwarded as soon as possible.

Qr. Mr. Dept.

The transportation of the Brigade consists of twenty two (22) army wagons and one hundred and forty (140) mules with the necessary equipments. Full rations of cats have been issued during the month.

Commissary Dept.

The commissary reports that he has issued the following rations during the month: Full rations of salt meat, fresh meat, coffee, sugar, hard bread and salt. Five days rations of vinegar, candles, mixed vigetables (sic) one of flour, one half ration of whiskey and ten of soap. There is a great want of soap in the command. Company officers report a great scarcity of the article and state that with the amount received it is impossible for the men to keep clean and from the appearance of some of the troops at the last inspection I concur in the statement. There is a great deficiency in the quantity reported as issued by the commissary and the quantity which the regimental commanders state they have received. The 119th N.Y. Vols report

that they have received only three full rations this month up to the 17th and the other regiments of the command give about the same quantity.

Medical Dept.

Medical supplies are sufficient. Each regiment is supplied with a good pack animal to carry medical stores.

The following officers reported present for duty were absent from inspection lst Lieut John Goebel 73rd Pa V. Vols on picket

General Orders No. 10

It has been announced by the Major General Commanding this Army, that hostilities have entirely ceased, and that this Army is to march at once via Richmond to Washington to be mustered out of service and return to their homes.

We have a long march before us, and through what has been hitherto the enemy's country, but recent events having put an end to the war, the march will be conducted the same as in any loyal State. There will be no foraging upon the country, private property will be respected, and soldiers will not be allowed to enter dwelling houses.

Every effort will be made on the part of all officers to prevent straggling and pillaging. Division Commanders will institute in their commands a system of Roll Call upon the march and all men improperly absent will be summarily punished. A pack train of twelve animals only will be allowed to the Field and line officers of each Regiment.

All other animals now in the possession of Officers or men of this command except the private horses of officers entitled to keep them and a sufficient number of horses to mount the authorized number of orderlies at Division and Brigade Head Quarters, will at once be turned in to the Chief Quarter Master of the Corps.

The Inspectors of the different commands will immediately upon the publication of this order, make the necessary inspections, to see that this order is promptly and fully complied with. Any officer neglecting to do so, will be reported to these Head Quarters. After starting from here, the march will be continued from day to day until our destination is reached, or until orders are given from these or superior Head Quarters, to halt.

The Divisions will habitually march and encamp from three to five miles apart, and a sufficient interval may be made while on the march between the Brigades and Regiments to render the march as easy as possible, but both the troops and train of each Division will be closed up and encamped together each night.

The trains of each Division will march with it and each Division Commander will make his own disposition of his troops to cover and assist his trains.

The pontoon train will march habitually in advance of the trains of the leading Division.

The Artillery will march with the leading Division preceding (sic) all the trains. The Comdg. Officer of the leading Division will establish all necessary guards over buildings and property along the route of mrach. These guards will be relieved by the succeeding Division as they pass.
