I have not wrote on a good while I didn't know ~~if~~ wether it was best ~~or~~ or not I did not know but our corps might be all broken up before you could answer my letter. I received your letter dated may the 19th. This soon. I have had 2 from you before this that I have not answerd so I thought I would answer this. it is not nessesary for me to write any war news or about the close of the war for you have long heard of it, there is no need of my writing much anyhow for I shall soon be home myself.

We left Raleigh N.C. the last day of April and past through Richmond may the 11th. we past through some good country the folks was hoeing corn when we past through the country around Richmond and the grain was mostly all headed out, apples and peaches were quite large, straw berries are ripe, we had a grand review in Washington last Wednesday it was a grate time I wish you could have seen us that day, there were a good many people in the city. the sidewalks, trees and housetops on the street through which we marched were crowded full, the people gave us a hearty welcome as we past through the street, such spattling of hands such waving of handkerchifs and such cheering as they made I never heard before the Ladies had prepared all kinds of flowers which they give to us as we past them, we are waiting here now to have our discharge papers made out I think we shall be to home by the 4 of July. You

have been writing about the nice times you have had at
the parties and dances, but never mind I shall make
all that up. maby I was laying in some mud hole
about those times down in S.C. but that is all forgotten
now, we are now in a good and dry place beside the
railroad, about 4 miles from Washington. tell mother to
have a strawberrey shortcake ready for me to eat
when I get there. Mr. Mason was here today. give my
best respects to all and tell them I am well. I had a
letter from Wease a good while ago but I have not

Dear Brother

It is just a month ago today when we left East Otto, when we then looked ahead it looked rather dark, but things look better now, since then we have made a great circle in the United States and have seen many a hard day or night, but still I have seen lots of good times and I have had lots of fun, I would not have missed this chance for 1,000 doll. The people of the south was much surprised when they see us marching through there, for they thought we never could do it and another thing the reb. soldiers had told them great yarns about us. They had told them that the Yankees had horns on their heads but they found it was not so. One instance I remember, it was the time we took Raleigh, when we marched through the city a boy remarked and said why I have stood here all this time and see the Yankees pass, but I have not seen one with any horns on yet to which one of our boys remarked and told him, that he had seen some which had had horns — (horns of whiskey) of course and the rebs had told the darkey we would kill them all but they were all glad to see us they stood in crowds of 10 to 30 all along the road. all those seems we have passed, and are now in camp about 4 miles north of Washington, side the railroad, troops are passing here every day for home. I guess we shant be home, not till the week after next, we have nothing to do at all and plenty to eat such as it is,

and we have what we call here, a good bed to sleep
on, a few leaves 2 rubber blankets to lay on and a
knapsack for my pillow I recieved your letter today
about 2 o'clock. I think the straw fibres will be ripe
by the time I shall gett home they have been ripe long
ago here I am as well as ever so is Willie but Tom is
again in the hospital he will be discharged there give
my best respects to all who may inquire after me
and tell them I would soon be home and I shall
make up all that I lost in the last 9 month I have
been promoted to Corporal May the first I guess
you had better write again, for I don't believe I
should get the letter best respects to all
