

written March but I should care  
as far as I am concerned  
I have money enough to last  
me until June (I need a  
letter from DeForest last night  
he told me Betty was sick.  
Why did you not tell me of it  
& want to know when you left  
you are sick.  
Well I suppose that says about  
how one thinks of the  
draft about this time, I hope  
the cold will bring more  
than that and one day,  
I am glad I embarked when I  
did for more my time is  
shorter. Let out and if I  
had stayed at home and his  
drafted it would have only  
fired up again. But I don't  
think the war will last  
my time and I hope not.  
Not because I am sick of

following, but because  
I like peace instead of  
war. I am well satisfied  
with my new position. It  
helps me towards what I do not  
have to learn about. I do not  
have to go on fatigues and  
which is not very pleasant  
this winter.  
DeForest, tells me he expects  
to be drafted, and some others  
to help us with and the Relations  
I should like to see them down  
here if it was not for his family  
but they need him at home.  
Betty, when are you getting  
to Baltimore, you never have told  
me. You are short of going  
to church & your father at the  
same time, so I am excited  
you are keeping a calendar in  
your church. Most things you  
write let me know more
