- L200 EXCELLENT PENCIL FOLK ART DRAWING OF A REGIMENTAL BAND IN CAMP. Artist unknown/unsigned. Executed on beige paper 7 x 5.75 inches. Depicted are eleven members of a regimental band enjoying camp life. Several of the individuals are smoking pipes, two are playing their over-the-shoulder horns, one reads a newspaper which has "WAR" in large type. Background is a very interesting view of their tents which are built on wooden platforms. Behind the tents are several leafless trees which seems to indicate an early Spring scene. Several soldiers can be seen doing chores-chopping & carrying firewood, and cooking. One soldier is sitting on a large bass drum. Several soldiers are seated around the campfire. Two washbuckets can also be seen and a line full of drying clothes. A very busy scene. Several areas have ink used to add a shadowing effect. Nicely executed soldier sketch-becoming quite rare.....\$350.00
