The Cattaraugus Freeman.

ELLICOTTVILLE, JUNE 2, 1864.

LOCAL AND MISCELLANEOUS.

☞ S. M. HAMILTON, Esq., of Dunkirk, has been appointed Agent for the Buffalo & Erie Railroad Company, at Dunkirk, in place of C. E. CANDEE, resigned.

☞ We are under obligations to HENRY VAN ARNAM, Surgeon of the 154th N. Y. V., for the list of casualties in that Regiment which we publish in another column.

☞ At a meeting of the Board of Excise held in this village on Tuesday last, the following grocery licenses were granted for this Town: Dr. E. S. STEWART, JAMES COTTER, McMAHON & WALSH.

☞ SODA FOUNTAIN.—AMOS PETTIT has just erected a new Soda Fountain at his grocery under the Exchange Hotel, where the lovers of this delicious and healthful beverage may be accommodated at all times.

☞ Mr. GEORGE E. PERKINS, a good penman and an excellent teacher, is now instructing a large class in penmanship at the Union School House in this village. His terms are $1 for a course of twenty-four lessons.

☞ The Spotted Copperhead Adder of the Warren *Ledger*—*B. F. Morris*—was in Town one day last week. His business, we suppose, was to condole with the "Oldest Rebel Editor West of Cayuga Bridge" and other Confederate Democrats, over the recent victories of General GRANT.

☞ We have received from JOSEPH LAWRENCE, Jr., a list of the killed and wounded in the 64th New York, but as Mr. MANLEY had forwarded a list which was already in type, that of Mr. LAWRENCE does not, of course, appear. The latter will please accept our thanks, nevertheless.

☞ The venerable and well-known Indian Chief, WILLIAM PARKER, father of Capt. ELY S. PARKER, Assistant Adjutant General on General GRANT's Staff, and N. H. PARKER, Esq., U. S. Interpreter for the New York Indians, died recently at his residence on the Tonawanda Reservation in Genesee County.

☞ SODA CRACKERS.—We are under many obligations to Messrs. E. S. & J. W. BARNARD, of Angelica, for a box of beautiful Soda Crackers of their own manufacture.—Dealers hereabouts will do well to order of the above named firm, for their crackers are certainly superior to those usually offered in this market.

☞ THE NEW CENTS.—The new cents recently authorized to be issued have made their appearance. They are made almost entirely of copper. The circumference of the [illegible] is the same as that of the nickel [illegible] they are thinner and much lighter

U. S. 10-40 BONDS.

These Bonds are issued under the Act of Congress of March 8th, 1864, which provides that all Bonds issued under this Act shall be EXEMPT FROM TAXATION by or under any state or municipal authority. Subscriptions to these Bonds are received in United States notes or notes of National Banks. They are TO BE REDEEMED IN COIN, at the pleasure of the Government, at any period *not less than ten nor more than forty years* from their date, and until their redemption FIVE PER CENT. INTEREST WILL BE PAID IN COIN, on Bonds of not over one hundred dollars annually and on all other Bonds semi-annually. The interest is payable on the first days of March and September in each year.

Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U. S. Treasurer, and can be transferred only on the owner's order. Coupon Bonds are payable to bearer, and are more convenient for commercial uses.

Subscribers to this loan will have the option of having their Bonds draw interest from March 1st, by paying the accrued interest in coin—(or in United States notes, or the notes of National Banks, adding fifty per cent. for premium,) or receive them drawing interest from date of subscription and deposit. As these Bonds are

Exempt from Municipal or State Taxation,

their value is increased from one to three per cent. per annum, according to the rate of tax levied in various parts of the country.

At the present rate of premium on gold they pay

Over Eight Per Cent Interest

in currency, and are equal convenience as a permanent or temporary investment.

It is believed that no securities offer so great inducements to lenders as the various descriptions of U. S. Bonds. In all other forms of indebtedness, the faith or ability of private parties or stock companies or separate communities only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both principal and interest in coin.

These Bonds may be subscribed for in sums from $50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit of the interest.

It may be useful to state in this connection that the total Funded Debt of the United States on which interest is payable in gold, on the 31st day of March, 1864, was $761,905,000. The interest on this debt for the coming fiscal year will be $45,937,120, while the customs revenue in gold for the current fiscal year, ending June 30th, 1864, has been so far at the rate of over $100,000,000 per annum.

It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasurer for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to $150,000,000 per annum.

Instructions to the National Banks acting as loan agents were not issued from the United States Treasury until March 28, but in the first three weeks of April the subscriptions averaged more than TEN MIL
