The BONADIEU for 1943

"... But when the bugles sounded war They put their games away."

Presents the BONADIEU for nineteen forty-three

Foreword

Foreword The editors of the 1943 "Bonadieu" met with unusual difficulties in the production of this year's annual, difficulties and hin of this year's annual, difficulties and hin of this year's annual, difficulties and hin drances arising from the disrupted civilian they have tried to produce a record of this year's Senior Class and of the story of the 1942-1943 school year at St. Bonaventue of dige in as pleasant and interesting a fastion as their talents and confused con-ditions made possible. If it seems strange that 'the war' plays a small part in the pages that follow, it is because the ditors believe that war and normal colleg-and they have tried to represent normal and they have tried to represent normal and they have tried to represent normal college life at St. Bona's, because that is the life that all wish to remember. After the war, perhaps we shall know again: firm handclasps of college buddiessmiles—laughs—perhaps those few tears— books—those friends—school spirit— games—Septembers—Junes.

Dedication ...

"You see, Brother, it's—well, it's like this. There's many an individual who has figured in this college life of ours who has rarely, or never, been given due appreciation for the part he has played in making that life more pleasant, more satisfying. As in life, of course, there are countless numbers of men who sweat in order that others may profit by their labors and yet who receive no due recognition for their work.

"The odd feature about these individuals, about these men, is that they never complain about their neglect—more characteristic of their natures is it to live in complete unawareness of it.

"Gosh, Brother, this Class of '43 has certainly kept on your neck these past four years, haven't they? Running around yelling about their mail—crowding around your window for packages—chasing you with their money orders—impatiently demanding stamp service.

"Absorbed as they were in the contemplation of their own important selves, they forgot your feelings many a time, didn't they, Brother? Of course you understand that when a fellow's away from home, mail is a very important item in his life but we're not telling you anything about mail—we know that.

"What we want to do, right here and now, Brother, is to say that we are immensely grateful for every bit of effort, every ounce of sweat, you've given us fellows ever since we've been here at Bona's. We—well, we just want you to know, Brother, that your work is being appreciated.

"Whenever the fellows of '43 think of St Bona's, Brother, they won't be able to help thinking of you. They figured that the most proper way to express the thanks and respect they owe to you, would be to dedicate their Yearbook to you.

"So that's just what they did.

"We're proud to dedicate our yearbook to you, Brother Cletus, for being a plain, ordinary human being, a humble son of St. Francis, a friend to all, a man who knows and does his job well, a tradition—and yes, for just being—Brother Clete."

March 7, 1943 Feast of St. Thomas Aquinas

My Dear Graduates:

Graduation is a day of joy, and joy is the fruit of peace. Since there is no peace in the world around you, you must seek it in another world. Not to mention the saecularistic and materialistic philosophies that have made wanton and violent inroads upon theis fair land in recent decades, it is not likely that even the great Aristotle can show you the way to perfect peace. St. Thomas stopped reverently at the door of this great schoolman, but he passed on and found what he yearned for at the feet of the greater Master who said: "Peace I leave with you, my peace I give to you; not as the world gives do I give to you" (John 14, 27).

This is the lesson we have taught you these past four years. Keep it, love it, live it, and exemplify it in your words and actions. Some twenty-five years from now, when you hold this Graduation Book in your hands and read these lines, you will understand that the present struggle will not have brought the peace that men had hoped for, and that all the wisdom of this world dissolves as dust before the searching Eye of the "Ancient of days." Try always to see things as God sees them; for He alone is the source of the better things of life, of true friendship, of genuine loyalty to your Country and your Church, of a peace that endures forever. With this peace in your heart and home, the joy of Graduation Day is certain to abide with you.

Sincerely yours,

Fr. Thomas

We can certainly say this—that never have we known nor can we ever hope to know again, priests, teachers, friends, as loyal, helpful, inspiring, as comradely, as good, as the Franciscans who were our teachers and guides at St. Bona's.

Whatever we have learned, whatever thirst for knowledge and truth we have gained during the past four years, we certainly owe to them. All the pleasant incidents that took place were under their supervision; the most dear memories we shall have of St. Bona's will be those of her priests and our friendships with them; the faces that will most often come to our minds will be their faces.

They have taught us how to live by giving us examples of happy, peaceful, just living in their own lives. They have taught us how to learn by offering their own hard-earned learning to us. They have taught us how to pray by their example; how to work by the effort and energy they put into their own lives.

We have never known a time when we could not go to any one of them for help in any sort of personal problem, mental mixup, personal worry, and not have them give their prompt and complete attention to our problem, to our worry. We have never known a time when their counsel and advice has not given us a new, determined, and happy outlook.

Of our lay professors can we say the same words. We shall always remember them, and the personal interest they took in our studies and our activities. They are all permanent traditions in our minds. "See you again, Father. I'll try and write."

Presenting the SENIORS

Someone has said that the little things in this world are the the ones that count. Certainly they counted with the Class of '43 these past four years. We seniors will in all probability appreciate to a greater extent this aphorism, when, after graduating, we look back on our four short years here at Bona's and summarize for ourselves our lives while students here.

Rev. Frederick Murphy, O.F.M. Moderator

... back to the campus ... sick slip on Monday.... They are the things we will remember. And on the campus; sure, we will never forget Devereux Hall, nor De La Roche, nor the Library, but perhaps more than the buildings and rather obvious things of the campus, the little things will have left a greater impression ... the campus clock—four faces, four different times ... the center path—Frosh, beware!... the sign "Please Do Not Feed" above the fish pond but under the ceramic lion head ... and the fresh snow on the cedars and spruce ... football practice—once around and in ... the statue of the Virgin Mother illuminated against the somer background of night.

We will not remember the friars and professors for the course they taught nor why they taught, but for their idiosyncrasies in dress, speech, and habits . . . Fr. Tom's "dink" . . . Fr. Hubert's ambidexterity . . . Prof. Miller's "ahems" . . . the puns of Fr. Claude . . . Prof. Norm Kelly's white uniform . . . the field problems of Lt. Engel . . . Fr. Chris' sandals.

Room FIVE . . . BE THERE! . . . assume the angle . . . where is your dink? . . . out per on Saturday night . . . the Haven, Fremmings . . . Olean House . . . Burtons . . . "Give My Regards to Jo-Jo" . . . check in by midnight.

Prom week-ends . . . she's coming in on the 11:15 tomorrow morning . . . we'll need more than that, better make it six or seven . . . not too much ginger ale, please . . . so long, D. A., write soon . . . go 'way and let me sleep.

Raykovitz, Power, Falvo.

Senior exams will begin April 8th . . . Fr., I want you to meet my Mother and Dad . . . good-bye, roomie, don't forget to write.

Bonadieu, then, farewell —to all these "little things" that are now so big. A last handclasp . . . a last smile ... a last tear ... a last June ... a last wave of the hand ... a Bonadieu!

JAMES EDWARD AUD

SILVER CREEK, N. Y.

A top-ranking student is Jim, with an A-1 rating for personality. Sincere and loyal and friendly. Army seems to be his forte: he was Cadet Lieutenant-Colonel of the R. O. T. C., and it was due to his organizing ability and willingness to work that the 1943 Military Ball was such a splendid success. Office-holding is another one of his characteristics, indicative of his executive ability and the confidence that others place in him. With those looks and that manner, it's no wonder that he's always a top man at social affairs. With those brains, it's no wonder that he's got a high index. With that frankness and fun-spirit, it's no wonder that he made so many friends.

"Hallo, there, Chick, bo-o—y." Yes, sir, here comes our own inimitable Chick, with that checkered shirt and Paul Bunyan cap. Cleveland's gift to Bonaventure is amiable and cheerful and sarcastic and frank and well-liked. He's a most versatile conversationalist and a discussion of any type will never find him lacking ideas or means of expression. One of the "Three Musketeers" (Peters-Glasheen-to Andre), he's the cigar smoker of the outfit. Studied social conditions, knows them in and out, figures there's something wrong. His future students are going to be attracted to him as much as we have been.

SCIENCE

If you want to know anything about any personality or event or subject, "Barny" is the lad to go to. You'll probably be amused by the way he holds that palm out during the explanation, but that won't detract from your noticing twinkling brown eyes, intelligent, full sentences, a nicely modulated voice, a pleasing, interesting manner. Arts men call this lad a "deserter," but he went on to gain fame in Math, anyway. The Glee Club called him indispensable. The R. O. T. C. calls him one of their best students. He walks like he thinks: fast and determined. We'll remember his generosity, his stories, his laugh, his New Jersey boosting, his friendship.

PRE-MED

In our Freshman year, there was no man that spent more time in chapel than did our own Captain Midnight. Especially about 11:30 at night. We've tried to quiet him down since then and have only partially succeeded, thank heavens. Joe's a funster and a ready wit. A cigar or a pipe are his most faithful companions—and, oh yes, Fee. A faithful and loyal adherent of the B. O. T. M. Club, he gladly lends out his latest copies. The mainstay of his class bowling team since '39—and when he hits those maples you really know it. Darkcomplexioned, smiling eyes; a powerful voice and a perfect roll-caller. Joe was always interesting and we're certainly glad to have known him.

A. K. M. Officer, Rochester Club, R. O. T. C., Officers Club Secretary, Who's Who Selection, Bowling League President. Intramural Sports.

LEO ALBERT BROWN

PATERSON, N. J.

PRE-DENTAL

Paterson has given us nothing more courteous and debonair than "Lippy." Easy going; dark and attractive; good story teller; has a contagious, drawn-out laugh; "here he is you lucky girls." Became more or less of a day-hop during our Senior year, certainly he hit the road home more often than any other of his townsies. An ideal companion on out pers, with never a dull moment. His friends are legion and varied. He and the friars are great pals; probably he got his generous heart from them. We've seen him study and we've seen him play and we like him best in the latter role. The Naval Air Corps plans on seeing him in the former, though.

BUSINESS

The clicking of a typewriter is the world's sweetest music to 43's journalist and publicity man. Although newspaper work is the lead story in Leo's life, his regular feature story concerns a certain Kay—and her automobile. Roomed with Kennedy for three years—a sure indication of his endurance. Busy, dependable, efficient, hard working. He gets around—just look at that list of activities. Here's a man that's strictly business but goes on for social life too—and, by the way, is a success in both. Deadline's Wednesday noon, Leo.

ANTHONY BENJAMIN CASELLA

BINGHAMTON, N. Y.

PRE-MED

Here's a swell fellow to know that started off his collegiate career waving the Orange of Syracuse and ended up waving the Brown and White of St. Bona's. The change took place in our Sophomore year and we've never had cause to regret it. "Benny" is a studious and sincere lad who originally planned on subscribing to the Hippocratic oath. We'll remember his worrying about gray hairs that never were, and his earnest, agitated manner whenever he explained a difficult point. He's a musician that likes to jam and jive—one of the mainstays of the Bona's Collegians. Has a habit once in a while of making mountains out of mole-hills but that doesn't detract from a nice personality.

ECCLESIASTICAL, ARTS

Joe hails from Titusville, Pa., for which name he is often kidded. Joe is known for his love of salads. In Science for a year, he changed to Arts, in view of entering the west wing of Devereaux—the Seminary. Science's loss was the priesthood's gain. Joe excells in Photography. To all on the campus Joe's name is correlative of Photography. We feel that his quiet piety, sympathetic understanding of human nature, and active mind will serve him well in his future duties as a parish priest.

"Let's get together on this, fellows, what d'ya say?" As the sound of this characteristic greeting falls on our ears we know that "the Chron" is near, that somewhere close by there's a good-looking, easy-going, (decidedly easy-going), slow-talking, Windsor-knotted young fellow by the name of Coyle. Things are going to happen: there'll be a long, leisurely bull-session with dramatized gestures per Chron and "Rabble-Rouser"; there'll be an atmosphere charged with both subtle and open wit and puns that register for Chron ten minutes later—if he's not their source himself; there'll be handshaking and backslapping in the true Bonaventure fashion; like as not there'll be action. Chron—loyal, good-natured, sincere, wise in your own way, dramatic—we hope you don't change.

MAURICE ADDISON CRISMAN

BRADFORD, PA.

PRE-LAW

"Cris" is that day-hop from Bradford that was noted for the number of different cars he possessed, for the excellent rating he obtained in R. O. T. C. work, and for his work on the Pistol Team. We always liked to go to lunch with him of a Friday noon and learn how the outside world was coming along. Many's the time he took it on his shoulders to show the boys around Bradford. If there's one thing he likes to talk about its oil wells; it there's two words to describe him, they're "intelligent, practical"; if there's one thing we especially liked about him, it was his method of expressing himself, his opinions; if there's one thing he's going to be, it's this: a success.

Here's a boy who left Falvo and Maggo and Devereux for Mary, mother-in-law and bungalow. To all external appearances, Pete is carefree and nonchalant but we know him to be conscientious, warmhearted, and a hard-working member of the Class of '43. Original, congenial, intelligent, talkative, he'll never want for friends.

For Neil, all roads lead to that Copper City. He's goodlooking, suave, debonair, very easy to get along with; his choice is "scotch and soda, please," "make mine Luckies," and "Hi, M. F." Our Junior year saw him voted best-dressed in the class and making the rounds with Ned Hennessey. A gilded line plus that Don Juan appearance equals 43's lady killer. There is something in that neatness, that guarded smile, and that quizzical look that finds Neil many friends. Neil's claim to fame is his debating prowess—he is a logical, systematic, ready arguer.

"Fair-haired" and good-looking is this smiling, optimistic. cheerful lad. You feel more like calling him "Jackie" than the ponderous "John G." In his college days he was noted for his jitterbug (refined) abilities and his "record machine." Then came the sem—of course. Extremely loyal to and a great booster of home town Buffalo. A well informed student of Hitlerism and German history in general. A swell fellow to know, generous, open-hearted, most sincere, lively—bound to be a popular cleric.

SCIENCE

"Duff" is a big, square-built fellow that went for a while to the seminary, then decided to use that background to help him major in Chemistry at St. Bona's. A teller of tales, long and drawn-out tales but absorbing ones—make you say, "Gosh this fellow gets around!" Decidedly pro-Irish and decidedly very friendly. He's always ready to hit the road for a week-end with you; if you're broke, leave everything to Duff; he'll borrow it somewhere. Generous, affable, athletic, and pleasant to know. Made a swell roommate for Barny and Duke; made a welcome classmate to the men of '43.

"Dutch" comes from Rome, New York, and for the past four years has been an exceptionally active member of his class. He plays every sport, but has a particular fascination for golf. His clear thinking and radiant personality makes him well equipped for any situation. If there is a discussion of any kind you can bet he'll be in the middle of it. We have no fear for "Dutch's" future for we know him as a true and generous friend, a gentleman, and a scholar. Nor will we ever forget those piercing black eyes, dark hair, and good looks. We hope he will always be as active as he was up on that fourth floor.

Those pin-striped pants fit "Starchy's" personality to a "T." Tall, dark, and handsome, Johnny is an extremely sociable being, clean-cut and smooth, very agreeable, and neat. Always a prominent man at social affairs and at the dances, he was willing to flash that big smile on any and all to make things a little livelier. His most frequently used expression was "Hey, Mahj!" More or less of a culinary artist; certainly a hard working student; a good man on out-pers; capable of being a darn good sawbones; deeply interested in any and all things that go on in the world; a real Bonaventure man.

Some lonely winter night when you hear the strains of an accordion creeping over some front-line (or is that too dire a picture?) you'll know that Fee can not be far off. Some day when you're in a drugstore; watch the Calcitose counter and sooner or later, our John is bound to walk up. Some morning when you're reading your newspaper, look up what's going on in the world of science, and you'll find that Fee is going on —to new worlds. Some time when you feel blue, down-and-out, ask Fee to drop around and your troubles will run away in smiles and laughter. Some time when you want a good argument, verbally or otherwise—ring the same number. That's John Fee. "What ya majorin' in, John?"

LOCKPORT, N. Y.

PRE-MEDICAL

"Bob" has another nickname, but he detests it, so for his sake we'll overlook it here. He claims that there are only two courses at Bona's: science and sleep. Of course he is a member of the former. At a party, Bobby stands out—a ready flow of wit, life, and out to make everybody happy. Bob would have been officer material for the Field Artillery, had he not turned it down in favor of his vocation: medicine. When he leaves Bona's, he will continue his studies in that field at Marquette, and in the not-too-distant future will hang out an M.D. shingle. Much of his time is spent extolling and defending the importance of Lockport. To put Bob in a nutshell: well-dressed, clean-cut, fun-loving, talkative, intelligent. A good business head on those shoulders, too; Bob efficiently handled the job of providing the '43 men with their rings. Study hard, Bob, and let those Wisconsinites know that there's a Bonaventure.

Well-liked, soft-spoken, and reliable Herbie. A good "mixer," he is at home in any company. Expansive and generous, he'll gladly bend an eat at any time to your tale of woe and sorrow. A purely positive personality, he radiates confidence to his companions. Add up all these accomplishments, mix with social graces, and you have Mr. Feller. Herb's big job for three years was taking care of Bruno, and when Rafferty left, the big boy was a little upset. Soon, however, that deep voice and shaking, contagious laugh were echoing down Devereux's halls again. Herb also found time, when he wasn't in lab, to go down to Olean and join the K. of C. We think he'd make a pretty good knight in armour, too.

"Gumba" has been a guardian of class and club funds since he first arrived on our campus. This certainly serves as an insight into his character. As "big boy" of the N. Y. A. here, he has had many a delicate assignment to perform, and has done them all without alienating anyone's feelings. This is an indication of his good nature and tact. Avid "Dodger" rooter, naturally. We could say, "John is small in stature but large in heart," but won't, since that is a rather overused phrase in yearbooks, and an application that everyone knows of John. Frankness is another one of his traits—he'll treat you man to man. He took "business" at Bona's. This and his experience as school labor-boss should insure for "Gumba" a

Here's one of our friends that's known for his consideration of others, for his generosity, for his occasionally silent moods, for his intelligent thinking and arguing. Bill is an athlete, too; didn't have much chance to show his stuff at a track-less school; but his build will tell you the story of his ability. "Pancho" is a neat and capable person. For the past four years it has been his job to take care of our minor ailments down at the infirmary and in handling the job, he's been completely unselfish and hard-working. A business student and a good one. Another one of the lucky few who furnish their own transportation, John would always take you where you wanted to go, and no need for an "at your own risk." Still, you might ask him about that drive through the blinding snow of the Allegany hills and what befell. A good man at the dances, and a faithful attendant at social affairs. Earlier in his college career, he sported a moustache which gave him a "Dukish" but a smart, appearance. We'll remember him for the right way to pronounce his name, for his firm opinions, for his capability, for his sincerity; we'll remember pleasantly his friendship.

Duane would probably have joined the Army upon graduation, even had there been no war, for the R. O. T. C., along with Chemistry has been his chief interest on the campus. (As for his interest off campus, she is not for us to discuss.) Duane "day-hoppped" it from Limestone for three years, but moved to nearby Allegany when the 105's arrived. Tall, blonde, with an ever-present pipe in a smiling mouth; those adjectives make it simple to distinguish "Joe Limestone" in any crowd. In the chem lab, he is the man with the ideas, ingenuity, and finesse, that is, if he keeps away from the water hose and shower. We deem it a privilege to be friends and classmates of his, not because he's a rarity, because that isn't so—but because he is as sincere, unfeigned and genuine as a Rockefeller dime.

SCIENCE

Look at Smitty's desk and you know Smitty—neat, orderly, practical. Here's a mathematical, calculating mind that asserts itself in his everyday life. The summer of '42 did big things for Ray; they say she's a brunette! Phil or John will tell you that he makes an ideal roommate. Prompt, generous, intelligent (plus!), and dependable. The Army means a lot to Ray and given a chance, he'll mean a lot to the Army. Although a busy organizer of and participant in intramural sports, we'll remember: ". . . and don't call me Raymond!!"

WILLIAM SMYTH

CHESTER, N. Y.

BUSINESS

Bill is strictly a Metropolitan man with big city ideas and closest friends from the Met district. Bill is never at loss for words and his ability to have his listeners rolling in the aisles is really amazing. You can always find this happy, cheerful lad in Tiny's and Mac's room any time of day or night, engaged in some dissertation on something or other. Pleasant, likeable, carefree, joking, and jovial Bill will long be remembered by his fellow classmates. He can talk fast and cleverly; has talked himself into and out of many comical situations; has a lingo that would tickle Sparks. And Bill's motto might well be "Never say die!"

Intramural Sports, B. B. X., Metropolitan Club, Third Order.

WILLIAM LAWRENCE WEEKS

Ellicottville, N. Y.

SCIENCE

"Wee Willie Weeks"; well, not exactly. Not too large physically, but a big man in science (chemistry), and a big man in everything at Bona's that had to do with instrumental music. Woe to the unlearned who tried to listen in on one of his conversations with a fellow-scientist! A faithful member of the Class of '43 and of the day-hop group. Will had a bright manner about him and a bright way of speaking that was most attractive. Always seen a lot in the library or the laboratory or in that Rochester clique room. Studious, sincere, open-hearted, and co-operative and very easy to like.

JOSEPH VINCENT URMANN, JR.

RIDGWAY, PA.

SCIENCE

"Little Joe" is living proof of the old adage that important things come in small packages. Friendly and sincere, Joe is one of the most popular men on the campus. Treasurer of the Sophomore Class and Prom Publicity Committeeman Joe has been looked upon as an unofficial advisor of the Class of '43. His fairness is attested by the fact that he divided his social activities between Ridgway and Olean. A co-partner of the firm of Hanley and Urmann and a pal of everyone Joe has set an enviable record that will be hard to duplicate. When we think of Ridgway in the future we will always be reminded of a big cheery smile, a carefree Bona's man, and Joe.

Treasurer Sophomore Class, C. P. T., Officers Club, R. O. T. C.

OLEAN, N. Y.

BUSINESS

While "Zuk" may not have lived on campus he nevertheless carved out for himself a reputation of staunchness and reliability. His daily treks to and from Bonaventure over the past four years have been as regular as the sun. While a good business man he still found time to serve four years on the band and the orchestra holding down the bass horn in Prof. Kelley's outfit. In his spare time he manages to uphold the reputation of a gentleman of the day school in intramural sports. His affable air and his unfailing habit of keeping the boys at Devereux informed of uptown activities made him a valuable addition to the Class of '43. His wide circle of friends at Bonas and vicinity wish Zuk the best of everything in the future.

Presenting the JUNIORS

Class of 1944

"We are the men of '44. We, the warp and woof that have been brought from far corners to be woven from the stuff of which Bonaventure men are made into the tapestry of the Junior Class. Individually, few of our number are distinguished; collectively, we acknowledge no superiors. The cohesion of our parts which has made our various endeavors so successful has merited remark from faculty and student body alike.

"It is evident that our graduation will be postponed, but our cry 'we'll be back!' echoes even now through these hallowed corridors. In the all too brief three years which we have spent here we have forged many memories which shall ever serve as an imperishable bond between our Alma Mater and ourselves.

"Remember-?

Frosh Year—"How's it?"—The cinder path—"Lumberjack matches"—The fearsome "ROOM FIVE—BE THERE!"—"Beat Canisius"—"Right face; left face."

Soph Year—"Hey Frosh."—The center walk—Bona's 41-Canisius 14.—The Harvestivity— RSOP.—

Junior Year—former classmates now cassocked—new uniforms—Above all, November 20th The Prom—

"There are many, many more memories—an awareness of the constant friendly assistance and advice of the Friars—General Out Per—The Roomie—the beauties of the campus in the different seasons—

"We are leaving soon to give an account of ourselves as true Bonaventure men, but—'We'll be back."

Presenting the SOPHOMORES

Class of 1945

Dear Diary . . .

September, 1942

Sophomores—what a feeling! With Fr. Louis Foley, O.F.M., as our moderator, we assumed this scholastic position and asserted ourselves well in it. (The Frosh will vouch for our assertion!!)

October, 1942

Intramural football under way—the "iron rule" of our hand well felt by the poor Frosh—finally settled down to our new status in life.

November, 1942

Mid-semester exams kept us busy—much uncertainty about Uncle Sam's call—intramural football champs; another laurel for our class—contributed much in talent toward making the musical "Agent 444" a success—First Frosh-Soph Dance, a success!—Junior Prom, a big week-end!

December, 1942

Frosh day—we, the masters, become the mastered—Christmas vacation and home! January, 1943

Exams! Cramming and worrying—Interfraternity and Military Balls—great life if you don't weaken!

February, 1943

Uncle Sam took quite a few more of our number—we are honored to serve.

March, 1943

We roared like the March lion but took the accelerated program and added class hours, calm as the March lamb—applied ourselves as true scholastic Sophs should.

April, 1943

More worry—final exams—sad parting—we may never be reunited as a class, in body, and there's a war to be won—but we will always be a united class in true Bonaventure spirit—May God bless and protect us all!

Presenting the FRESHMEN

Class of 1946

"We, the Class of '46, share with no one the dubious distinction of being the first wartime freshman class of this generation to enter St. Bonaventure College. Last September when we entered, a war was raging; it is still raging. But one of far more immediate importance and challenge has intervened, and we were unarmed; only the sophomores wielded weapons. However, we came through, essentially unscatched, with only our pride and ideals slightly tattered and bruised. And the tokens of our experiences are myriad.

"For instance, this was the semester in which Robert Hartnett was elected class president, John Miller, vice-president, Robert Kinsella, secretary, and Thomas Collins, treasurer. This was the semester in which Joseph Hanley and his for-

Joseph Ryan, Freshmen Advisor

midable associates again exerted the full senatorial power of their whip hands. This was the semester in which numerous Bonas students, old and new, temporarily shelved their liberty until they could shell Hitler's. This was the semester in which a hundred timorous freshmen escaped the traditional Bona's Hell Week. And this was the semester in which, had frosh rules not met a premature death, students and faculty alike would certainly have suffered slow derangement under the yoke of "The Curse of an Aching Heart."

"What comes next in Bona's history only the soothsayers know. But for the freshmen, anyway, it will not be unexciting."

* RESERVE OFFICERS TRAINING CORPS

Captain John E. Wurst, Colonel E. T. Spencer, Ll. Donald F. Smith.

Keserve Officers Training Corps

"In the Fall of 1939, a new Freshman class registered for training in the St. Bonaventure College Reserve Officers Training Corps. None of us will ever forget our first affiliation with the unit. Many are the stories the boys tell of those first days of orientation. No one considered the European war as bearing on us. "We all remember those old French '75's' and the time we had with the breech-block assembly. Remember when

"We all remember those old French '75's' and the time we had with the breech-block assembly. Remember when Major Murray would point out an aiming point, give us a deflection, and then put the watch on us to time our deflection shifts? And, remember those classes in Military Courtesy, Discipline, and Customs. Who could ever forget them? But, when exam time rolled around, we were ready. "When we came back in the Fall for our Sophomore year, we found a new regime had taken over. Remember?

"When we came back in the Fall for our Sophomore year, we found a new regime had taken over. Remember? There was Colonel Tenney, Lieutenant Smith, and Lieutenant Engel. The corporal stripes were awarded and the year was under way. Lieutenant Engel really gave us a going over. At least we thought that at the time. But, when the Spring, with its usual Friday afternoon R. O. O. P.'s, rolled around, we really knew our stuff in the clutch.

"In the Fall of 1941, we met another new officer, Lieutenant Wurst. Remember when he first called us to 'Attention?" Everyone obeyed without delay. It took him but a short time to show us the necessity of preparing ourselves for the European conflict.

"On the morning after December 7th, 1941, Lieutenant Wurst really had his hands full answering questions. 'When will we be called?' 'Where will they send us?' We were all ready to go, so we thought. The Lieutenant quieted our anxiety and anticipation however with his usual equanimity. He told us of the need our country would have for us as officers, and the vast amount of knowledge that we had still to acquire.

"We really did some sweating over those precision and bracket problems. We all had our hearts in our work, though, and the Instructor was with us all the way. Our capabilities when we were given some responsibility proved to us that we had not labored in vain. Lieutenant Wurst had really given us the goods. Remember that 'Inspection Day' in the Spring of 1942 when we thought that he was leaving us and we presented him with the thing that he wanted most—a wrist watch?

"That year we left Bona's feeling rather dejected by the thoughts of missing our Summer training at Pine Camp and losing Lieutenant Wurst to some combat organization. But, we knew what was expected of us and the preparation we had to make.

"Returning in the Fail of 1942, we were all surprised to see Lieutenant Wurst and Lieutenant Smith still here, and to meet our new Instructor Colonel E. T. Spencer. We really had an organization to work with.

"Remember the initiation we had for the new men in the Officer's Club? The banquet down at the Knights of Columbus?

"We brushed up on our leadership out on the drill field, ran a traverse around the college grounds, set up Fire Direction centers, and worked with maps and air photos. Then the new American '105's' arrived—remember? They looked mighty good to us. But, they were huge compared to the old '75's' that we were used to. So, we really had to go to work to understand them.

"Remember when Lieutenant Wurst was promoted to the rank of Captain?"

"Then the Officer's Club took over the running of the Military Ball. What a time! It was the best ball in the history of the unit.

"From there we went on to Small and Large T problems. Who will ever forget those difficult days? Colonel Spencer aided by Captain Wurst and Lieutenant Smith had to work to make us understand, but they did a fine job.

"With Graduation Day in view, we had a great deal to look back on and much more to look forward to. We knew that we had 'the stuff.' Now our hope is that we can use that 'stuff' to best advantage as officers in the Army of the United States."

BACK ROW: Salvatore, Vena, Hanley, Power, Magill, Sullivan. FRONT ROW: Falvo, Kane, Shea, Aud, Glynn.

This organization, composed of two delegates from each of the five fraternities on the campus—the B. B. S., D. B. S., I. D. A., A. K. M., and B. M. X., had its origin two years ago for the purpose of presenting the Interfraternity Ball. In this, the second year of its existence, it assumed not only the old, but also new functions. In addition to presenting the Ball it set itself up as a general council of the fraternities wherein would be discussed and ironed out the common duties and obligations, trials and tribulations of all, in effect, serving the purpose of a court. Thus it provided a common "meeting ground"—a necessary step in the conflation of interests.

The officers of the Council elected for this year were: President, Walter E. Shea, B. M. X.; Vice-President, John P. Falvo, A. K. M.; Secretary, William T. Glynn, B. B. X.; Treasurer, James F. Magill, I. D. A. Named as co-chairmen of the Interfraternity Ball were Dominic P. Salvatori and Victor D. Vena, both of the D. S. B. The representative from the Student Senate was Joseph M. Hanley who served in an advisory capacity from that body.

Under the auspices of those gentlemen and with the general assistance of the board members of the Council, the Second Annual Inter-fraternity Ball was presented at mid-term. This year, as last, the Ball was a closed affair, limiting its invitations to members of the recognized fraternities. The dance was a huge success and one that will be remembered as an outstanding event of the year 1942-43.

Jota Delta Alpha

The Iota Delta Alpha is the oldest fraternity on the campus with one of the largest enrollments of all fraternities at St. Bonaventure. The purpose of the I. D. A. is to further fraternal spirit, to provide for the members some form of interesting, educational recreation, to give them a little rest from their studies by fraternity social functions.

Jim and Jim talk things over.

Many were the heated and interesting debates and arguments that were carried on in old Alumni; many a lively and gay party (cokes only) has been held within the confines of those four famous walls; many times have the members been addressed by famous and awe-inspiring speakers. Long will we remember our pet phrase—"Ad sum"; our pet worry—strictly financial; and last, but not least, our lovable Moderator, Fr. Gabriel.

Officers for the year were: James E. Aud, President; James F. Magill, Vice-President; Edward M. Horey, Secretary; James F. Andre, Treasurer; Philip B. Iaconis, Sergeant-at-Arms.

Beta Beta Chi

Here is one more year gone by and one more year in which the B. B. X. fraternity, limiting its membership to students of Accounts, Finance, and Business Administration, has maintained its stead on this broad campus as its members' staunch companion and willing and competent aid in times of stress and in times of frolic.

Captained by Jim Peters, with Bill Glynn as First Mate, Bob Sullivan, Purser, and Tom Byrnes as Recorder, the good ship Beta Beta Chi, moderated by the strong hand of the Reverend Fidelis O'Rourke, O.F.M., sped along this year on one of its most eventful voyages. The freshmen plebes were given their sea legs back in October in a christening ceremony which they won't forget—and in which they proved their sea-worthiness in a convincing manner. Then, with all hands pulling in the same direction, B. B. X. set sail. Many a port did they

claim on the triumphant voyage, and many are the happy remembrances that they will carry with them in future sailing—of gay parties and festive banquets; of intellectual repartee and comradeship unexcelled. In a spirit of brotherhood, the end of their voyage brought them back to dock, wheer they joined the rest of the fraternity fleet and renewed acquaintances in a huge Interfraternity festival.

The Alpha Kappa Mu is devoted to scientific and pre-medical pursuits. During the course of the year at the weekly meetings the Club obtained guest speakers from among the College Faculty or from the ranks of the professional men in the surrounding communities. The topics presented were on medical and biological subjects, and proved most profitable for acquainting the members with the various sides of life dealing with their professions. Other phases of the A. K. M.'s well-balanced program included: Communion breakfast, occasional parties, movies, informal discussions.

Beta Mu Chi

The Beta Mu Chi, named in honor of the famed scientist, Roger Bacon, and the late Professor James A. McLaughlin, is devoted to the interests of students in the fields of Mathematics and Physics. Although the enrollment of this organization is limited because of the scarcity of students of these particular studies, there is active participation in the club's activities. Meetings are held bi-weekly at which time topics relating to the sciences of Mathematics and Physics are presented by the students and discussed by the group. At various times throughout the year interesting scientific movies are shown to illustrate some of the principles learned by the students in the classroom.

In order to better acquaint the members with the practical accomplishments of science, the Beta Mu Chi arranges trips to factories in the vicinity, such as the Olean Glass Co. and Clark

Bros. in Olean, where the students may observe the important part which Physics and Mathematics play in the industrial life of the country. Thus it affords its members an extra-curricular opportunity to study the theories of these subjects and also to realize the prominent role they play in the manufacture of vital industrial products.

The moderator of this organization for the past several years has been Father Maurice Scheier, O.F.M., Professor of Mathematics. The present officers are: Walter Shea, President; Francis Kane, Vice-President; John Fee, Secretary; and Ray Smith, Treasurer.

The Delta Sigma represents the day-hops among the fraternities of the campus. As far as activities go, this fraternity is undoubtedly one of the most successful, having carried out many and varied social functions during the year. The frat began the season with a Pledge Welcome Dance early in the fall at the Olean House, rushing new and potential members. Their initiations were carried out on a grand scale at the Option House in Bradford. All during the year the members met very often for banquets and parties, creating a strong fraternal spirit and strengthening their ever-ready co-operative at-

The twentieth anniversary of its founding was marked, this year, by the St. Bonaventure College Chapter of the Catholic Students' Mission Crusade. Thus the unit, founded for the triple purpose of mission prayer, study, and sacrifice, is one of the oldest campus societies.

Presenting mission speakers, motion pictures, and entertainments to the general collegiate body, the C. S. M. C. has been one of the more active campus organizations. Carrying on, many of its former members are now actively engaged in the "field afar."

Particular note was awarded the unit when Robert Smith Shea, twice president of the college unit, was elected to the national executive board of the Crusade.

The mission society opened the year under the capable moderatorship of Fr. Richard Leo Heppler, O.F.M. When Fr. Richard resigned because of other duties, Fr. Aubert Reilly, O.F.M., former president of the clerical conference at the Catholic University of America, was appointed spiritual director of the group.

Generally speaking, the St. Bonaventure College Unit of the C. S. M. C. might well be regarded as true Crusaders under their banner motto "Cognoscitis Veritatem."

Discussing the problems of peace in a world busy with the business of war is no more of a paradox than planning on Wednesday to go fishing on Saturday. Thoughts of peace in the middle of war; thoughts of rest in the middle of work. The Catholic Association for International Peace follows this line of reasoning.

The St. Bonaventure Unit of the C. A. I. P. were hosts this year to the Lake Erie Region delegates of the Association during their annual convention, held on the St. Bona campus in October. The debate-open forum character of the sessions made them lively and argumentative ones; the resolutions adopted showed that something definite was accomplished; the social phase of the convention made it a perfectly successful one.

Only two years old, yet already attracting national attention, is the St. Bonaventure College Chapter of the National Federation of Catholic College Students.

This group, representing all the campus organizations, dedicates itself to the consideration of the position of the Catholic college students in questions of both campus and world import. This work was generally carried on by open forums in which the entire student body was encouraged to participate.

Radio Staff

No. Old Alumni Hall isn't haunted. Not yet, anyway. Those strange sounds you hear coming from out its aged windows of an early evening; those unearthly cries, clashing of shields, staccato of machine gun; those beautifully modulated voices, the soothing strains of drawing room music: all these are merely expressions of the popular St. Bonaventure Radio Group. Although they were unable to get into action until the second semester, each evening of that period saw them

presenting one kind or another of entertaining, informative, 15-minute radio program. Fr. Claude Kean, O.F.M., spent long hours arranging and directing programs; Fr. Aubert Reilly, O.F.M., actively assisted. "Stag Party," "I Know a Case," "Radio Drama," "Chamber Music Program," "Unforgotten Men," are programs that collegians took part in and listened to. "Duffy's Tavern," "Bob Hope" were way behind them in popularity.

St. Bona Players

History was made at St. Bona's on December 2, 1942, when the College Players Guild presented a musical comedy, "Agent 444," the first production of its kind ever seen on the campus, and one that marked a new height of comedy and staging. The musical was written entirely by Fr. Claude Kean, O.F.M., Professor of Music; special acclaim were awarded the performances of Joe Wild, Miss Mary Lou Mc-Cabe, John Carlin, Dick Bowers, Leo Keenan, Henry DeRoche, Edmund Brown, Tom Carlesimo; Bona's co-eds in the persons of "Dot" Sain, Grace Carls, and Mary Quinn did themselves up proud; collegians left the hall amazed at the

performance and highly amused at the story. When the show "hit the road" (in Salamanca), a thousand persons turned out to welcome a welcome change from moving pictures. All this was an indication of what the Bona players were capable of; war cut short further activities; "The Betrayal" had to be abandoned; "Agent 444" is their sole but most worthy claim to fame for 1942-43.

KING OF THE PROM

The college weekly newspaper, the St. Bona Venture, was another war casualty, more or less. Its eight-page format was reduced to four early in March of '43. Up to that time, however, it fulfilled most successfully its job of reporting campus news in an interesting and entertaining fashion, of boosting up student morale, of providing the collegians with humorous and readable feature material. Editor-in-Chief Ed Donivan and Moderator Fr. Gabriel Naughten, O.F.M., shared a heavy burden in making sure that the paper got out on time; the news, sports, and feature writers made sure that every week the students found something new and entertaining in the "campus rag." The new moderator, Fr. Aubert The new moderator, Fr. Aubert Reilly, O.F.M., the staff photographer Vic Favasuli, all who had anything to do with the Bona Venture deserve a big hand.

"Laurel" Editor Ed Horey would have no trouble in writing a ten-page essay on the subject, "Worries of a Magazine Editor in Wartime." Ed had plenty of worries: lack of writers when the draft took his underclass staff —lack of time when the war mixed everything up getting copy and cuts and ideas down to the printer to meet that "deadline." Still the Laurel magazine managed to come out. It still contained articles and editorials that were thought-provoking and carefully written and short stories that showed real talent. Its cover was always a pleasure to look at; its format, in general, a piece of art. Adviser James L. Hayes put a lot of time on directing the magazine's policy; Coyle, Shea, Keenan, Hohnan, Brown, Eagle, Vollmer, and others spent time and energy. Their work has been appreciated.

Student Senate

The Student Senate showed themselves to be an outstanding combination during the 1942-1943 year. They maintained their duties with utmost consideration, encouraging truth and good-will as a basic part of the "Bona Way of Life." The Senate emphasized this principle especially to the incoming Freshmen. When you mention the '42-'43 Senate, you must mention prexy Joe Hanley, worker, organizer, true Bonaventure man. Nor could the organization's work ever have been a

success without the co-operation and interest of Vice-President Woodrow McCarthy, Frosh Advisor Joe Ryan, and Day-Hop Representative Ed Keating. Junior Senators John Dunnett and Mike Marens and Sophomore Representatives Dick Bowers and Joe Wild also took a full share in the work and worry of their responsible positions.

The Moderator for this year's Senate was Fr. Peter Anthony Carr, O.F.M., Dean of Discipline. During the semester two Junior students worked with the Senate: Al McCauley and Paul Duffy, both deserving of mention. A big smile from "Prexy Joe."

Who's Who

The idea of creating one national basis of recognition by means of a yearbook, devoid of all politics, initiation fees, and dues, for outstanding students was conceived more than ten years ago. After two years of research, travel, and interviews with college officials, and others, to determine whether there was need of such a publication, a co-operative effort by American colleges and universities resulted in the printing of the first Who's Who, in 1934.

The purpose of the project is two-fold: first, to serve as an outstanding honor in which a deserving student, after displaying merit in college and accomplishing his goals, would be

Two of Long Island's finest.

given recognition without having to pay some fee; second, to establish a reference volume of authoritative information on the great body of America's leading college students. The students listed represent the best that our colleges can produce. Requisites for membership are character, scholarship, leadership in extra-curricular activities, and potentiality for future usefulness to business and society.

Congratulations are certainly in order for the Bonamen who distinguished themselves by gaining this recognition.

The 1943 BONADIEU...

If this yearbook, the 1943 Bonadieu, has succeeded in any way in successfully portraying, in words and pictures, the Senior Class and the campus life of 1943 at St. Bonaventure, its success is due to a countless number of factors.

When the staff asked groups and individuals to appear for pictures, all faithfully responded. When the staff imposed upon the Fathers for all kinds of odd and demanding favors, the Fathers unselfishly gave us whatever assistance they could. Editor James Magill and Business Manager John Fisher gave more than their share of time and effort to the project.

Every day saw Fisher and Magill going over some new angle, over some new problem that had arisen—saw assistant editors Ed Horey and Bob Shea puzzling and working over write-ups and make-up—saw Jim Aud sweating over a typewriter far into the night—saw Walt Shea handling the photography angle—saw Joe Hanley looking up the sport files. Leo Brownyard, Ray Smith, Jim Peters, Joe Battaglia, and Jim Coyle; all had a most helpful hand in the work.

When write-ups were assigned to individuals, there were no complaints heard, only an earnest desire to co-operate. Mr. Nodler of Olean saved the "Bonadicu" from an untimely death when he so kindly consented to do our photography work for us, in spite of the shortage of material he was suffering. Mr. William Ross, of The DuBois Press in Rochester, gave the staff a spirit, ideas, a patience, a working knowledge, that it never would have gained by itself.

The Senior Class considers itself fortunate to even be seeing a 1943 Bonadieu. Its sincere thanks are tendered to all of the above and to all who helped in any way in enabling the men of '43 to bow out with a tradition.

Football 1942

Fr. Anselm, as he is known to the students and athletes at St. Bonnies, was an outstanding basketball player and athlete before he joined the Franciscan Order. He came here this year to take over the duties of Director of Athletics, replacing Rev. Coleman Dunne, O.F.M., who went with the Army Chaplain Corps. While at Providence University, Fr. Anselm was All-New England in 1929, 1930, and 1931, and All-American in 1930 and 1931.

After graduating with a Ph.D. from Providence in 1931, he went back to that school and coached basketball and baseball. He then went to LaSalle Academy where he coached basketball for four years and saw his team tie for the state championship two years out of the four. His last two years were spent at Siena College where he coached the Junior Varsity Basketball team, and witnessed his quintet win fourteen out of seventeen games that last year.

All the fellows know Fr. Anselm as a square guy, an inspiring teacher, and a worthy priest of St. Francis.

Rev. Anselm Krieger, O.F.M. Director of Athletics

Carroll M. Reilly, Head Coach

Coach Reilly is serving his thirteenth year as head coach of football and basketball at Bona's. Mike came to St. Bona's in the spring of 1928 as assistant football coach and head coach of basketball and baseball. As a coach of basketball he developed teams that for many years have been considered the best in the East. His record in basketball here is near 75% perfect in wins and losses.

Recognized by many for his ability to "make something out of nothing," Mike has often been faced with the task of developing teams with little reserve power at hand. This year Mike had less than 20 players during most of the football season, yet brought forth a grid team that beat such teams as Fort Totten and Scranton—with eight men going close to sixty minutes in each game.

Again in basketball, Mike had difficulty with the "manpower situation." Out of two seniors, two juniors, two sophomores, and a handful of freshmen he has come up with a smooth working quintet that has maintained better than a .500 average against some of the stiffest competition in the country. Refusing to accept the fate of the athletic activities of smaller colleges caused by the war, transportation difficulties, and loss of students to the armed forces, the Athletic Board of Control at St. Bona's resolved to carry on sport traditions of Bonaventure, and to give the students a maximum of enjoyment—even if the schedules had to be shortened.

Only 22 men answered Head Coach Mike Reilly's call for football practice — all holdovers from last year's squad and 11 rookies. To mold a team from this squad to meet both Canisius and Scranton twice and Fort Totten once seemed almost an impossible task, but Mike and Assistant Coach Ed Jontos succeeded in putting onto the field in the opening game against Canisius a team worthy, most worthy, of wearing the Brown and White of St. Bonaventure.

Canisius 7-St. Bonaventure 7

A heavy field greeted the Bona gridders in their initial encounter against Canisius, and

Kerkhoff

slowed the flashy Bona backs—Blair and Raykovitz. Midway through the second quarter, the Brown and White forged ahead when Woody McCarthy picked up a blocked kick and raced for a score. Kushnieruk, talent-toed tackle, added the point after. After Canisius tied the score later in the same period, both teams battled evenly until the final whistle.

Scranton 20-St. Bonaventure 0

In the first Scranton game, Bonaventure was smothered under a 20 to 0 score. The Tomcats had too much power, too much reserve strength for the Bonamen. A gallant Brown and White squad fought, but the power was just not there.

Fort Totten 0-St. Bonaventure 7

The third game saw Bonamen enjoying victory over the soldiers of Fort Totten. In spite of a muddy field, Dan Raykovitz hammered his way through the soldiers to score the game's lone touchdown. Kushnieruk added the point-

after. Final score: Bonaventure 7 and Fort Totten 0.

Scranton 7-St. Bonaventure 20

Pre-game speculation gave our Brown Indians little chance against Scranton in the second game. The 20 to 0 defeat already suffered at the hands of Scranton, and "that splendid record," comment had it, "tells the story of what to expect." But Scranton met a different squad that afternoon, that clear, cool afternoon in October. It was the same 22 Bonamen, but they had been keyed for the game; it was a new rejuvenated Bona squad. From the opening kick-off it was apparent that Scranton was no match for the Bonaventure Brown Indians. Danny Raykobitz opened the score by intercepting a pass and racing to the thirty yard line before being downed.

Three plays later he scored. Less than 50 seconds after that, Ernie Blair scored Bona-

Fisher

venture's second touchdown as he returned the kick-off 95 yards. Woody McCarthy scored the third Bonaventure touchdown on an endaround from the 19-yard line.

Canisius 14-St. Bonaventure 0

In the final game, the Bonamen were downed by the powerful Canisius Griffins, 14 to 0. The Brown and White fought brilliantly but the Griffins had been keyed for this game, as Bona's had set itself for the Scranton game. It was just not a Bonaventure day.

Basketball

More severely hit by graduations and service in the armed forces than football was the 1942-43 edition of the Brown and White Basketeers. Long before practice had begun, Coach Mike Reilly lost two of his most promising candidates to the Air Corps. Once the season had opened, he could never be certain of what team would be on the floor next.

To find a team in a squad of four veterans and eight first year men—a team worthy of such a formidable schedule was no easy task. Kansas, Georgetown, West Virginia, Western Kentucky, plus the traditional Canisius and Niagara teams formed the nucleus of a seventeen game schedule. Building his team around the two seasoned guards, Woody McCarthy and Danny Raykovitz, Reilly continually changed the line-up to find a smooth-working combination which included first-year man Dick Hammock, and Dom Binetti and Joey Stetz, juniors, with some varsity experience.

The Bonamen saw some of the best competition in the nation—lost nine games and garnered eight wins. Opening the season rather slowly, the Brown Indians played "on-and-off" basketball until they met Georgetown in the Buffalo Auditorium, where their fight and game spirit and life made up for the fact that they failed to gain a victory.

The most unpredictable victory of the season was the 44-36 triumph over Canisius in Olean. Thrice beaten by Little Three teams the "upset boys" from Bona's put on their best show of the year and for the third successive year, played the deciding factor in the Little Three championship.

It would be difficult to point out individuals for special praise. The entire squad: Woody McCarthy, Dom Binetti, Danny Raykovitz, Tom Molitor, Dick Hammock, Joey Stetz, Larry McKiernan, Bob Kinsella, Frank Kane, Frank LoVuolo—all deserve much credit. The eight victories of their stiff 17-game schedule speaks for itself.
